

Tamika Williams

With a passion for addressing the human element of cybersecurity, Tamika Williams has worked for fifteen plus years implementing and managing information security (IS) programs. She started her career in project management and system development. She is currently a cybersecurity manager for a federal government agency. Her prior role was a HIPAA Consultant for a local county government in Michigan and adjunct Information Technology (IT) program faculty. She specializes in governance, risk, and compliance; and educating people and organizations on IT and IS concepts.

She has implemented privacy and security compliance programs at the local county government level; and worked in information security and IT governance in healthcare, automotive, and finance organizations. She holds the CISSP, CAP, SSCP, and HCISPP certifications from ISC2; and CISM from ISACA. She earned a Master of Science in Information Technology with a specialization in Cybersecurity from Walsh College. She is pursuing doctoral studies in Information Assurance from Capella University. She lives in Oakland County, Michigan with her husband who also works in IT. In her spare time, she enjoys community involvement, reading books, working out, and watching silly movies.
